2. Claims 6, 9, and 10 are allowed.
3. The following is an Examiner's statement of reasons for allowance:
Claims 6, 9, and 10 recite the novel features for a decoding device, comprising:
a bit stream accumulation section for accumulating the bit streams, and
a decoding section for decoding the bit streams accumulated in the bit stream accumulation section;
wherein,
the bit stream accumulation section includes a buffer having a capacity corresponding to at least a value which is obtained by multiplying the maximum frame length of the bit streams with a value obtained by dividing a maximum possible transfer rate by a minimum possible transfer rate, and
the decoding section starts decoding the bit streams after accumulating the bit streams for a time period of a value obtained by multiplying one frame time period with a value obtained by dividing the maximum possible transfer rate by the minimum possible transfer rate.
The prior art of records fail to anticipate or make obvious the novel features.
Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
